Projects

Snake Water and Game using JS

Snake Water and Game is a simple JavaScript-based game where users play against the computer by choosing between Snake, Water, and Gun.

Card Payment Interface

A modern HTML/CSS interface with smooth operation and an easy-to-use design.

Budget Tracker

Developed a responsive Budget Tracker web application leveraging React.js for the frontend and JSON Server for data storage and retrieval. Led frontend development, collaborating closely with backend teams to design and implement RESTful APIs for seamless data communication. Integrated user authentication.
